# TRAVEL VARIX SYSTEM

Legs also need rest...

Professional, portable massage device

[www.varix.sk](http://www.varix.sk)

## TRAVEL VARIX SYSTEM - TVS

Travel varix system is universal  
Professional massage device  
for all age categories.  
TVS is simple and original solution  
to prevent heavy legs syndrome.

- releases muscle tension
- supports circulation
- provides relaxing pressure massages
- helps to reduce tiredness and legs muscle pain
- immediate relief

### EXAMPLES OF APPLICATION:

- heavy legs syndrome
- reduction of lymph edemas
- support of circulation in limbs
- patients with muscle spasms
- patients with limb movement disorder

## HOW TVS WORKS?

TVS supports blood and lymph circulation at bottom part of legs just above the ankle. Gentle expansion and contraction of massage cushion working in cycles gentle presses on venous capillaries and makes massage that relieves muscle tension.

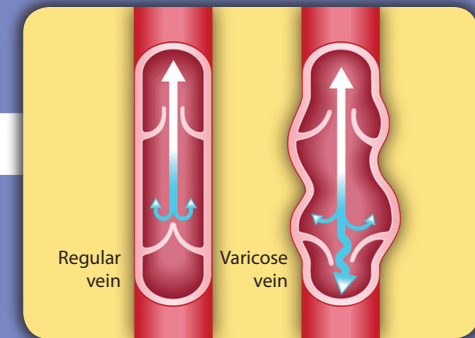

It helps to recover muscle activity after several injuries, long-term stillness of limbs or even reduces effects of aging.

Three levels of compression calibrated in laboratory guarantee required effect and replacement of other types compression sleeves.

Sitting still with legs hanging down or rumped significantly slows down circulating in deep veins, lower natural calf muscles and it leads to another rush of vein blood, the blood clotting and risk of thrombosis arise. Aging and another diseases arise also with aging and using of hormonal medications.

Thrombus is blood clot that accumulates under vein valve because of mentioned reasons. It is extremely dangerous and in case of tearing off embolism arise and it can cause death.

### CAUTION

Pregnant women and diabetics should consult the  
massage device with the doctor before use.
